USE AND CARE GUIDE

Lamitak laminates are durable, abrasion resistant and impact resistant under normal use. To better care for your laminates:

- Do not chop, slice, or hammer directly on the laminate surface
- Do not use sharp objects such as knives or box-cutters on the laminate surface
- Do not place hot cookware directly on the laminate surface
- Do not expose the laminate to temperatures above 60°C for prolonged periods, such as placing hot frying pans or dishes directly from the burner, which may cause the laminate to separate from substrate.
- Do not flood the laminate or introduce water at joints, which may cause the substrate to expand.

CLEANING

Our laminates are easy to clean

- Use warm water and a clean non-abrasive cloth to remove
- Use mild household cleaner or detergent if necessary and rinse with clean water
- Dry the surface with a clean non-abrasive cloth
- Special attention may be required for stubborn stains - apply a small amount of thinner on a clean non-abrasive cloth to gently remove stain and rinse the area with another clean damp cloth.
- A1,0d using any cleaning agent containing acid, alkali or sodium hypochlorite, as they may corrode, discolour or ruin the surface of the laminate.

BUYERS SAFEGUARD

All our laminate designs are crafted and fine-tuned to the slightest detail. Insist on the original and be certain of its authenticity. We recommend checking your finished product against the samples in this Lamitak portfolio. Alternatively, you may request for sample laminate chips at any of our offices.

SOLID CORE

HOMOGENEOUS LAMINATE

Reach a new level of refinement with Lamitak's Solid Core laminates. With one consistent colour throughout the laminate sheet, the telltale brown edges of regular laminates are eliminated, resulting in crisp and sleek designs for a superior level of detailing. Lamitak's Solid Core range is not just limited to solid-colour laminates but also includes timber-, concrete- and stone-inspired designs.
